

Who We Are

Founded in 2006, JetCo has served as an embedded grant and technical writing, proposal management, government sales, and marketing team for our clients for the past seventeen (17) years. As a Michigan-based, multi-location, qualified Service-Disabled Veteran-Owned Small Business (SDVOSB), we know that finding and developing responses to grant opportunities can be intimidating to large and small organizations and businesses alike. We are a GSA Contract Holder (contract number: 47QRAA20D007M) for business administrative services focusing on technical writing.

Our Services

Grant Research

Support in finding state, philanthropic, federal, municipal, and other sources for funding opportunities that will help your program succeed. Our research team utilizes a myriad of resources including grants.gov, Bloomberg Government, Find RFP, and more.

Grant Writing

Our grant team will write, review, and guide in submission to ensure we're telling the right narrative for your project and team. This includes, but is not limited to, outlines, compliance matrixes, schedules and deliverables, the project narrative, fact sheets, budget narrative, and letters of support (LOS).

Funding Needs Analysis

Our grant team will work with State SMEs to identify and prioritize problems, gaps, and potential opportunities that you want to address with grant-funded projects and innovations.

Additional Services

- Capture (government business development)
- In-house volume management and bid assembly
- Research, including Federal Focus Reports and Competitive Assessment Reports
- GSA Schedule application, submission, and maintenance
- Proposal management and bid writing
